

AFFILIATE MEMBERSHIP

The individual members of EUSEM' s National Society Members are invited to join EUSEM as 'affiliate member' free of charge.

Your National society will ask for your consent for sharing your data with EUSEM. As soon as EUSEM gets the data from your society, your affiliate membership profile will be uploaded in EUSEM database and you will be part of EUSEM network.

The affiliate membership is available for physicians, residents, nurses, all allied health professionals being member of the National Society of EM.

The main benefits for affiliate members are:

- Receiving specific news about EM developments and new guidelines ;
- Being informed on projects such as the Fellowship Programme, Refresher Courses, EM-Day and others;
- Receiving updates on events and activities: e-learnings, webinars, EBEEM exams, and much more;
- Receiving a discount to the EUSEM Congress.

Affiliate membership does not replace the individual membership to EUSEM, which gives even more benefits.
